

Television stations which use the public airwaves are by law required to serve the public interest. Sinclair Broadcast Group is planning on running a one sided blatantly anti-Kerry program on all of it's stations. This is FREE political advertising, and it's forcing the views of the owners of Sinclair onto the rest of the public, many of whom do not share those views. This is illegal. I hope you will inform Sinclair that they may not run this program, and that if they do, you will levy the appropriate fines and or revoke their licenses.
